

Odyssey

ODY/R

Temperature Sensor

Description

The ODY/R is an accurate, thermistor based room temperature sensor. The attractive low-profile enclosure is manufactured in a tough nylon compound and designed to blend unobtrusively with any decor.

Specification

Colour :	White flame retardent ABS.
Dimensions :	84(w) 30(d) 84(h) mm.
Weight :	72g.
Storage Temperature :	-65°C to 125°C.
Operating temperature :	0°C to 70°C.
Temperature range :	0°C to 50°C.
Power Consumption :	20mA.
Wiring :	2 core low voltage cable.
Terminations :	Terminals accept cable from 0.5-2.5mm diameter (flexible for final connection).
Entry :	Back entry unit conduit-box fixings.
Front :	Plate snap-on fixing with final screw and plastic cap.
